

Aug. 1937

Dear Mom & Dad;

Well! I'm now a full fledged "freshy." Last night we ate over at the cafeteria and had pretty good food. Like a Waldorf! After that I went down street with a couple of fellows. Providence seems to be a nice city except for the climb back up the hill. Went to bed kind of early. Gee! What a flock of gyp from Peddie. I've met 88 I guess there are more. The fellow across the hall comes from Kentucky & his roommate from Buffalo N. Y. The one from Kentucky seems like a nice guy but I have not seen his roommate. My roommate seems to be O.K. I guess he is a scholar. But that should be a good fault. Today at 9 we all took an English exam & they gave each one a separate

date for an appointment with an  
advisor. I was lucky & got one today.  
I have found out what I am taking  
& laid off Math. because I think that  
would have floored me. French is  
going to be bad enough. I'm taking

Eng Lit.

French I, II

Sociology

Psychology

Geology.

I have not found out the dates yet but  
will let you know. Economics is a  
Sophomore subject so I could not take that.  
I'm taking 3rd year French because you need  
3 yrs before you get out. I took Psychology  
rather than Botany or Biology. & Geology  
instead of Chem. Physics or Math.

The advisor said that it was a  
good course for a Freshman. I told  
him I was planning on Business when I  
got out so he said that that was the  
stuff. Today I got my coupon book.  
I bought a Freshman Hat. Next week  
we have to start wearing them. I have  
a cold but I think I can lick it. Hope  
Dad is feeling better. Tonight I'm going  
to a Dutch & Meat supper. It's hard to get  
acquainted here with so many fellows.  
Well I will close now. I got some B. Brown  
Automobile stickers for the car. Write soon  
Love Weston
